Dear Minister Ryan,

The world's poorest and most vulnerable communities are already feeling the worst impacts of the climate crisis, despite having least responsibility for causing it and least resources to adapt. In many cases the resulting loss and damage is irreversible.

We call on you to:

- Increase climate finance support for poorer developing countries, and push for the creation of a new international fund for climate-related loss and damage in 2022

- Work actively at COP27 and internationally to persuade other countries to support these goals.
- Ensure the money in this fund reaches the poorest and most vulnerable communities

Thank you.

This petition will be submitted to Eamon Ryan TD, Minister for the Environment, Climate and Communications, in the lead up to COP27.
