

A gift of **love** - the greatest Christmas tradition of all

This Christmas, we invite you to celebrate the progress that families in Malawi have made to lift themselves out of hunger. But there is more to be done and we invite you to reach out and share, so that more people can leave hunger behind.

Use this template to make a gift box or decoration to reflect on your own Christmas traditions and share the greatest gift of all – love. The reversible design gives you plenty of choice for decorating your box with colour, images, words or prayers.

Instructions:

1. Cut out the gift box shape and carefully make incisions for the slits and string holes.
2. Fold the four edges of the gift box into the centre, along the fold lines. You can have the pattern inside or outside.
3. Gently push the sides with the tabs towards each other and pinch the tabs together.
4. Push and hook one of the remaining sides over the tabs using the slit.
5. Repeat with the final side to close the gift box.

Without gifts of love, it wouldn't be Christmas
